

SATYENDRA KUMAR NAMDEO

QA ENGINEER | QA AUTOMATION | SDET | AI-ASSISTED QA

Bhopal, India | +91 75820 85292 | satyendranamdeo78130@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

QA Engineer with hands-on experience in **manual testing**, **test automation** and **end-to-end quality assurance** across web, mobile and iOS applications. Strong practical experience with **Playwright**, **JavaScript/TypeScript**, **Page Object Model (POM)**, **Appium**, **Android UiAutomator2**, **iOS XCUITest/WebDriverAgent** and **Xcode**. Additional experience includes **REST API validation**, **SQL/database testing**, **functional**, **regression**, **integration** and **E2E testing**. Skilled in **AI-assisted QA** and **prompt engineering** for accelerating test design, automation scripting, debugging, analysis and documentation. **Python**, **Flask**, **ASP.NET**, **C#** and **SQL** provide a development foundation for technical debugging and root-cause analysis.

TECHNICAL SKILLS

Automation Frameworks: Playwright, Page Object Model (POM), Appium, BugBug Tool

Languages: JavaScript, TypeScript, Python, C#, SQL

Mobile Automation: Android UiAutomator2, iOS XCUITest, WebDriverAgent (WDA), Xcode, Real Device Testing

API & Backend: REST API Validation, Backend Workflow Validation, Data Mapping, Data Integrity Validation

Test Engineering: Functional, Regression, Integration, End-to-End, UI, Smoke, Sanity, Cross-Browser, Cross-Device

Database: SQL, MSSQL, SQL Server, Query Validation, Database Validation

AI & Prompt Engineering: Structured Prompting, Context Engineering, Prompt Optimization, Iterative Prompting, AI-Assisted Test Design, AI-Assisted Debugging, Output Validation

Web / Development: HTML, CSS, Flask, ASP.NET Web Forms

Tools / Analytics: GitHub, Figma, Render, PythonAnywhere, Power BI, Tableau, Pandas, Matplotlib

PROFESSIONAL EXPERIENCE

QA Engineer | AM Webtech | Dec 2025 – Present

- Execute **manual and automation testing** for web and mobile products across **functional**, **regression**, **UI**, **backend**, **integration** and **E2E workflows**.
- Build and maintain **Playwright automation** using **JavaScript/TypeScript** and **Page Object Model (POM)** for reusable UI and business-flow validation.
- **Develop mobile automation** with **Appium** across **Android (UiAutomator2)** and **iOS (XCUITest/WebDriverAgent)**, including real-device testing.
- Validate **REST APIs**, **database records** and **backend workflows** to verify business rules, data mapping, data integrity and end-to-end outcomes.
- Perform **cross-browser**, **cross-device** and **iOS compatibility testing**; investigate failures, document defects, retest fixes and support closure.
- Use **AI-assisted prompt workflows** to accelerate test-case design, automation-script drafting, debugging, edge-case analysis and QA documentation while validating AI output against requirements.

Selected Product / Client Projects

Healthcare AI Platform | QA & Automation Engineer

Healthcare AI platform for clinician visit recording, AI-based clinical data extraction, OASIS forms and EMR integrations.

- Automated web workflows using **Playwright + JavaScript + Page Object Model (POM)**, and mobile workflows using **Appium for Android (UiAutomator2) and iOS (XCUITest/WDA)**.
- Tested the complete E2E flow: **visit creation** → **mobile recording** → **AI processing** → **clinical form review** → **EMR integration**.
- Validated **recording reliability**, **AI extraction**, **skip logic**, **data mapping**, **API behavior** and **integration workflows**.
- Performed integration testing across **WellSky**, **KanTime** and **Axxess** and verified data consistency across connected systems.

Behavioral Healthcare Platform | QA

Behavioral-health platform for individuals, operational skills, assessments, therapist assignments, sessions and analytics.

- Validated **individual/patient setup**, **skill and assessment configuration**, **therapist assignment**, **session execution** and **result submission**.
- Tested **report generation** and **statistical outputs** including points, graphs, median, mode and session outcomes.
- Verified consistency between **session data**, **calculations**, **generated reports** and **visual behavioral analysis**.

Digital Signature & Document Workflow | QA

Application for creating/editing invoices, receipts and contracts with digital signing and dual-party confirmation.

- Validated **document creation/editing**, **contract lifecycle**, **signing** and **confirmation workflows**.
- Verified **submission controls** so contracts remain incomplete until required signatures and confirmations are completed.

Events & Marketplace Platform | QA

Platform connecting martial-arts academies, instructors and students for seminars, tours, events and private sessions.

- Validated **registration**, **event creation**, **proposals**, **negotiation**, **acceptance** and **student-facing publication workflows**.
- Tested **ticket booking** and **private-session negotiation/confirmation** across role-based user journeys.

Pharmaceutical AI Platform | QA

AI-powered pharmaceutical analysis platform providing conversational access to pharmaceutical data.

- Validated **question-to-answer and data-retrieval workflows** for accuracy and consistency.
- Tested **chatbot interactions and response behavior** across pharmaceutical analysis scenarios.

AI-ASSISTED QA & PROMPT ENGINEERING

- **Prompt-driven test design:** Use structured prompts with requirements, context, constraints, acceptance criteria and expected output formats to accelerate positive, negative and edge-case test scenario creation.
- **Automation acceleration:** Use AI to draft and refine Playwright/Appium scripts, locator strategies and reusable test structures, followed by manual review and validation.
- **QA analysis acceleration:** Use AI to interpret logs/errors, generate root-cause hypotheses, suggest defect reproduction steps, create test-data ideas and improve QA documentation.
- **Prompt optimization:** Iteratively refine prompts based on output quality to produce faster, more consistent and more actionable results while keeping human validation in the loop.

ADDITIONAL PROFESSIONAL EXPERIENCE

Data Analyst Intern | Anudip Foundation | Nov 2024 – Mar 2025

- Optimised **complex SQL queries**, improving ETL pipeline performance by 30%.
- Performed **data cleaning, preprocessing and exploratory data analysis**, improving data accuracy by 25%.
- Developed **interactive Power BI dashboards**, improving KPI tracking efficiency by 40%.
- Used **Python and Pandas** for data analysis and insight generation.

ASP.NET Web Forms Developer Intern | Vishwatech Education | Jul 2024 – Oct 2024

- Developed and optimised **ASP.NET Web Forms applications using C# and SQL Server**.
- Contributed across the **SDLC**, improving delivery efficiency by 15%.
- Assisted with **debugging, backend integration, database connectivity and feature testing**.

SELECTED INDEPENDENT / PORTFOLIO PROJECTS

TesterWish | QA Testing Utility

Web-based testing utility for automated URL and workflow validation.

- Validates **accessibility, links, forms and basic UI workflows** and generates automated test-case reports.

Satyen78AI | AI / Web Application

AI-powered study assistant for conceptual revision and smart note generation.

- Built **responsive frontend and optimised backend workflows**, demonstrating web-development and QA-oriented product skills.

Super15 | Python / Flask / Machine Learning

IPL player prediction application using player statistics, recent form and venue history.

- Demonstrates **Python, Flask, data processing and ML-backed application development**.

Power BI & Python Analysis Dashboards | Data Analytics

Interactive analysis projects covering IPL trends, anime analytics and EV population data.

- Applied **Python, Pandas, Matplotlib, EDA, statistical analysis and dashboard development**.

ScholarUltimate Matrix | ASP.NET / SQL Server

Educational portal for student tracking and content sharing.

- Demonstrates **.NET development, SQL Server integration, database workflows and application-testing exposure**.

EDUCATION

MCA – Master of Computer Applications | University Institute of Technology, Bhopal | 2023–2025 | CGPA: 8.32

B.Tech – Electrical & Electronics Engineering | Lakshmi Narain College of Technology, Bhopal | 2019–2023 | CGPA: 8.77

Higher Secondary – PCM Stream | Renaissance Divine Public School | 2018–2019 | 65.8%

CERTIFICATIONS

Python Programming – Coursera | Introduction to SQL – Coursera | Data Analyst & Visualization – Anudip Foundation | ASP.NET Web Development – Vishwatech Education | Deloitte Australia Data Analytics Virtual Experience – Forage

CORE STRENGTHS

Critical Thinking | Strategic Problem Solving | Analytical Thinking | Quality-Oriented Mindset | Team Collaboration | Communication
